DISTRICT POLICY FOR BENEFITS

This Policy sets forth employment policy guidelines regarding benefits and general expectations of professional behavior and conduct which employees are expected to follow. This Policy informs employees about what the employer may generally expect from the employees so as to guide employees in their professional duties and in fulfilling their responsibilities as public servants. None of the statements or policies are meant to create any contract of employment, nor do they imply that the employer is guaranteeing any benefits or employment for any person. This Policy is not nor is it intended to be construed as an employment contract or to guarantee any rights to employees. Final interpretation and implementation of any of the policies or rules in this Manual are vested solely with the Board through the Fire Chief. The Policies and any benefits identified herein are subject to change at any time by the Board and the applicable provider for certain benefits and the benefits offered will be reviewed and revised periodically. This Policy eliminates and supersedes any prior policy governing benefits or any memorandum of understanding between the District and any employee. Any wages, benefits and conditions of employment applicable herein are not available to any employee who is subject to a collective bargaining agreement unless such benefits, wages, or conditions of employment are bargaining for and explicitly agreed to be incorporated into any collective bargaining agreement, and except that such employees shall follow any rules of conduct established herein.

This Policy is Bifurcated into two sections:

- Section 1: Benefits for sworn full-time employees and non-sworn salaried employees
- Section 2: Benefits for non-sworn full-time employees (Apprentices)

SECTION 1: BENEFITS FOR SWORN FULL-TIME EMPLOYEES AND NON-SWORN SALARIED EMPLOYEES

Employment Package

Sworn full-time employees of the Fire District and non-sworn full-time salaried employees will be provided with the following employee benefits as part of their full-time employment package with the Fire District as identified here in Section 1. The Fire Board approves the policy and the benefits outlined in the policy and reserves its right to make any changes at any time to this policy and the benefits afforded herein. Changes to this policy may also result from changes to a benefit directed by the District or made by the carrier as well as changes to the carrier itself. The Fire Board will approve the employee's wage step at time of hire and review additional steps annually. The Fire Board may establish a mutually agreed upon employment contract with salaried employees that

differs from this policy, provided such contract must be in writing, approved by the Board at a duly-noticed meeting of the Board, and intended to be a contract.

At the sole discretion of the Fire Chief, and upon review of the circumstances (including but not limited to major incidents, extended operational periods, or significant administrative projects), a Battalion Chief may be granted flexible shift days off. The granting of flexible shift days off is entirely at the discretion of the Fire Chief and is not an accrued benefit, entitlement, or mandatory form of compensation for additional hours worked. Any time off granted shall be mutually agreed upon between the Battalion Chief and the Fire Chief (or their designee)

to ensure the continuity of command and operations. Such flexible time off shall be documented and entered into the timekeeping system under a designated category, as "Flexible Time". Consistent with their classification as Salaried Exempt employees, Battalion Chiefs are not eligible to accrue or receive overtime pay or compensatory time off for additional hours worked. This flexible shift day policy is a discretionary management tool and does not constitute or imply the provision of compensatory time as defined by the Fair Labor Standards Act (FLSA) or any other relevant labor law.

- b) Finance Manager, Human Resource Manager, Deputy Chief, Assistant Chief, and Chief
 - i. The positions will average 40 scheduled hours Monday through Friday per week with at least 40 hours of the work being performed between 6 a.m. and 6 p.m. At the sole discretion of the Fire Chief, and upon review of the circumstances (including but not limited to major incidents, extended operational periods, or significant administrative projects), salaried staff may be granted a flexible work schedule in a given week. The granting of flexible work days is entirely at the discretion of the Fire Chief and is not an accrued benefit, entitlement, or mandatory form of compensation for additional hours worked. Any time off granted shall be mutually agreed upon between the salaried employee and the Fire Chief (or their designee) to ensure the continuity of administrative, command, and operations. Consistent with their classification as Salaried Exempt employees, these positions are not eligible to accrue or receive overtime pay or compensatory time off for additional hours worked. This flexible shift day policy is a discretionary management tool and does not constitute or imply the provision of compensatory time as defined by the Fair Labor Standards Act (FLSA) or any other relevant labor law.
 - ii. These positions will involve regularly scheduled meetings, trainings, and call backs, which, in any given week, may require more than 40 hours of work to be performed and, times, require work to be performed outside of the standard workday
 - iii. The Chief Officer positions will cover a rotating schedule as the senior advisor/secondary chief, in addition to their regular hours. These shifts include nights, weekends, and holidays. This may include regularly scheduled shifts, or as needed at the discretion of the Chief.

2. Extra Work Time:

- A. The Chief or the Chief's designee may offer employees additional work hours at any time based on the needs of the Fire District.
- B. Based on staffing or other reasons, the Chief or designee may mandate any employee to work based on the needs of the Fire District. These hours may be offered in a manner deemed appropriate by the Chief. For example, the Chief may follow a rotational method, starting with the most senior hourly employee continuing until the hours are picked up and continuing through the hourly employees each calendar year.
- C. To the extent practical, the Chief will try to avoid mandating an employee during the two days before or after a scheduled vacation or personal day. Mandating can occur the day of an open shift as necessary, however the Chief or designee will attempt to give employees as much notice as possible.

- C. Employees shall submit their trade requests to the Chief or designee utilizing the Fire District's online scheduling software simultaneously.

- E. The Fire District shall not be held liable for tracking or enforcing shift trades between employees.
- F. An employee's recourse in the event of an unfilled trade is to the other employee who is the trading partner and not the District. The District shall not be involved in remedying an unfulfilled trade between employees.
- G. The Chief may hold either or both trading partners accountable for failing to fill a trade and creating a vacancy.

- H. Should the employee covering the trade utilize any leave benefit during the scheduled trade when the District must bring in another employee to fill those hours, then those missed hours covered by another employee will be charged against the employee's applicable leave balance. Leave hours used while not working the expected trade time are not paid to the employee utilizing the applicable leave time.
- I. Should an employee be mandated to work, the employee that was originally scheduled to work and obtained coverage through a trade is exempt of the mandating on the day being worked unless an emergency arises.

4. **Overtime/Compensatory (Comp) Time:** The Fair Labor Standards Act (FLSA) and its state counterpart, requires that positions be designated as exempt or non-exempt for considerations of overtime pay.

- A. Non-Exempt Employees: The Fire District has established a special “7(k) work period” for its firefighters, which increases the FLSA overtime thresholds beyond the normal 40-hour week. This is permitted according to FLSA rules contained in, 29 USC §207(k). Firefighters covered under these special work periods are entitled to FLSA overtime only for hours worked in excess of the threshold set by the Department of Labor. The District uses a 28-day work period, which means firefighters are entitled to FLSA overtime only for hours actually worked over 212 during that 28-day period. The Fire District has opted to pay overtime in the form of cash at a rate of one and a half times the employee's hourly wage, and does not utilize or permit accrual of compensatory time by Non-Exempt Employees.

- B. The probationary period may be extended at the discretion of the Chief.
- C. Probationary employees and any other employee who is not a subordinate, as defined by the District, serve at-will and may be disciplined or discharged at the sole discretion of the Chief without recourse. Only those sworn full-time employees designated as subordinates by the District who are non-probationary are entitled to statutory protections identified in Wisconsin Statutes Section 62.13(5).

If an employee feels that there is a discrepancy in their evaluation, then they may review their evaluation with the Chief.

Employees must earn progression through the step program based on their annual employment evaluation. Employees scoring in the top two tiers may be eligible for a full step, employees scoring in the middle tier may be eligible for a half step, and employees scoring in the bottom two tiers may receive an adjustment based on adjustments to the step bracket they are currently in, as approved by the Fire Board. Once an employee reaches the maximum step, they are eligible for a percentage increase based on factors determined by the Board.

 - 4. Salary Exempt Employees (Finance Manager, Human Resource Manager, Deputy Chief, Assistant Chief, and Chief) may rescind scheduled leave at any time provided it does not have an impact on operational staffing following approval of the Chief.
 - C. Where all vacation time has not been scheduled by September 15, notice shall be provided of the need to schedule remaining vacation time. If the remaining vacation time is not scheduled by September 30, the Chief may designate the remaining days.

The Chief and Human

Resources Manager will provide a memorandum annually of the observance dates of Holidays.

- 2) These positions may be scheduled to work holidays based on the needs of the District.

26. Sick Leave/Short-Term Disability

- A. Paid sick leave is earned by eligible full-time employees within the classifications of Sworn Full-Time Employees, Hourly Employees, Hourly Shift Employees, and Sworn and non-Sworn Salaried Exempt Employees. An eligible employee who has earned sick leave hours may be eligible for sick leave for any period of absence from employment due to personal illness, bodily injury, exposure to contagious disease, or pregnancy, where the employee is too sick, injured, or restricted to perform the functions of the employee's job or other meaningful activity.
- B. Accrual:
 - a. Hourly and Salaried Shift Employees (averaging 56-hour workweek): Sick leave may be accrued at the rate of eighteen (18) hours per full month worked (including use of paid leave during that month), with a maximum total accumulation of 1,411 hours. Sick leave is not earned during periods of unpaid leave or during less than a full month of paid service. Illness extending beyond earned sick leave will be charged against earned paid leave.
 - b. Hourly and Salaried Employees (assigned to a 40-hour workweek): Sick leave may be accrued at the rate of twelve (12) hours per full month worked (including use of paid leave during that month), with a maximum total accumulation of 1,008 hours. Sick leave is not earned during periods of unpaid leave or during less than a full month of paid service. Illness extending beyond earned sick leave will be charged against earned paid leave.
 - c. When an employee moves from one hourly schedule to an alternative hourly schedule, the bank of accrued sick leave hours shall be converted using a formula as determined by the Chief so as not to give a windfall or penalty to the employee.
- C. Eligible employees hired by the District may be credited for sick hours from their current employer up to the District's maximum. Proof of these hours are required for credit.

- D. Sick leave may be taken for an immediate family member with medical or dental appointments, for attending the day of surgery for an immediate family member, and when necessary to attend to immediate family members who are too sick to provide care for themselves. Absences due to illness or injury to employee's family other than stated above will be charged to vacation time, unless such leave is protected by the Wisconsin Family Medical Leave Act where the employee may be eligible to substitute.
- E. The immediate family consists of the spouse, dependent children and/or parent. Spouse is defined as an employee's lawful husband or wife, including those in same sex marriages. Dependent child means biological, adopted, foster, stepchild, legal ward, or a child of a person standing in loco parentis who is a under the age of 18 or if over 18, incapable of self-care due to a mental or physical disability which the employee is responsible for and only if that child is living with the employee. Parent is defined as biological, adoptive, step, foster or any other individual who stood in loco parentis for the employee when he/she was a minor.
- F. Sick leave must be submitted using the Fire District's online scheduling software. Sick leave is approved on an individual basis by the on-duty battalion chief or scheduling; however, the Chief shall have sole discretion over any sick leave request.
- G. Employees who call in sick must contact the on-duty battalion chief at least an hour before the start of their workday and may be asked to identify the anticipated duration of the leave, the timeline when the condition began, whether the employee is seeking treatment, and the specific duties the employee is unable to perform. Failure to do so will result in that day being charged against vacation time as well as discipline up to and including discharge.
- H. Because sick leave is a valuable benefit not available to others, because it is meant to be used in deliberate limited circumstances, and because sick leave use has a substantially disruptive and costly effect on the workforce and the District, sick leave misuse harms the District and breaches the trust that others must have in that employee, and thus sick leave misuse may be treated as theft, dishonesty, and other rule violations resulting in substantial disciplinary consequence of discharge.
- I. Scheduled sick leave may be taken for medical or dental appointments in one-hour increments provided approval has been received from the Chief. Employees should make every effort to avoid scheduling medical and dental appointments during work hours.

- J. At the discretion of the Fire Board, absences due to serious illness or injury extending beyond earned sick leave may be extended based on an employee's past work record and performance and any other legal requirements.
- K. The Fire District may require a doctor's excuse or other requested documentation to verify illness of the employee or immediate family members when the employee seeks to use paid leave or for any other legitimate reason. Employees must notify the Chief as soon as they become aware, or at least 30 days in advance for the need for time off for any anticipated absence, including elective type medical situations (surgeries, procedures, etc.).
- L. If sick leave is used immediately prior to or immediately following the use of other paid leave such as vacation or personal leave, then the employee must furnish a doctor's excuse or other requested documentation identifying the duration of the need for leave, the specific duties the employee could not perform, and whether any follow up treatment is occurring, along with other information requested by the District.
- M. In the discretion of the Chief, a doctor's excuse or other requested documentation must be provided upon return to work or sick leave will not be paid for the days of absence. An employee who fails to follow proper call in procedures, whose absences are excessive, or constitute suspicious use may be denied sick leave use or required to furnish a doctor's excuse or other requested documentation for any absence, regardless of length, as determined by the Chief.
- N. No pay will be granted at separation of employment for any unused accumulated sick leave.
- O. For employees who retire from employment with the District and who are eligible to receive paid sick leave under this policy, the District may offer a retirement benefit which may include establishing a retiree Health Reimbursement Account for the retiring employee. The District may deposit annually the Employee's remaining accrued sick leave which exceeds the maximum accumulation of 1,008 hours earned during the past year into a Health Reimbursement Account. Sick leave which exceeds the maximum accumulation of 1,008 hours or 1,411 hours for respective classification at the end of the calendar year will be deposited into the employee's Health Reimbursement Account at a rate of \$20.00 per hour, for use for qualifying purposes at the time the HRA benefit is used. There shall be no cash payout of sick leave available or any other payment. The employee shall be responsible for payment of administrative fees for the account. The HRA plan will control for purposes of plan administration. For purposes of the benefits in this

Policy, to retire is distinct from resignation, and to retire means to end employment with the District to begin receipt of normal retirement benefits through the Wisconsin Retirement System and not pursuant to any early or disability retirement program, and with the intention of retiring and not accepting foreseeable employment elsewhere. The District reserves the right to modify or not offer this benefit at any time. Leaves of absence are considered on a case by case basis and based on the individual circumstances facing the District and the employee. Unless otherwise required by law, the Chief shall have sole discretion to grant or deny any request for other leave, and such leave shall be unpaid if the employee is not otherwise required to exhaust all paid leave available to them, as applicable and to the extent any such leave is subject to use.
